Practitioners Guide - CPA

"Not only nurse practitioners [NPs] who want to start a practice, but NPs who are employed also need to understand the business of health care and how that impacts the work that they do. If an NP really understands the business of health care—the economics of health care—they really can make a bigger impact on patient care."

Practice Management - AANP

Practitioners in both -- psychiatrists and psychologists -- are mental health professionals. Their area of expertise is the mind -- and the way it affects behavior and well-being.
