## **Mechanical Seals Latty**

The basic principle is common to all mechanical seals: provide sealing efficiency between two moving faces, lubricated by a liquid film, the so-called primary sealing. • The film maintained by the rotation comes from the medium conveyed by the machine or is an auxiliary fluid.

## **Mechanical seals - GROUPE LATTY**

A mechanical seal is an assembly made up of two sub-assemblies ensuring dynamic sealing between the rotating part and the fixed part, generally used for sealing the axes of pumps, agitators, mixers, etc.
