The Knowledge Business: The Commodification of Urban and ...

This entry presents an analysis of the commodification of knowledge and information in contemporary capitalism. We provide a consistent account of how information as a commodity effects the workings of both capitalism and of Marxist theory.

Commodification of Knowledge and Information - Oxford ...

The owners of commodified knowledge, which are mostly private companies, are knowledge-lords, the primary appropriators of knowledge-rents. In a process analogous to the original enclosures of the commons in the 16th century we can now speak of the "new enclosures" that privatize knowledge.

The Commodification of Knowledge and Information

Commodification is strictly related to marxist theory, which emphasizes the commodity as a key cell in a capitalistic driven society. From economic point of view, the concept describes the assignment of economic value to a good which previously has not been assessed in economic terms.

What is Commodification? What are its Advantages ...

v. t. e. Within a capitalist economic system, commodification is the transformation of goods, services, ideas, nature, personal information and people into commodities or objects of trade. A commodity at its most basic, according to Arjun Appadurai, is "anything intended for exchange," or any object of economic value.

Commodification - Wikipedia

(1995). Business process reengineering and the commodification of managerial knowledge. Journal of Marketing Management: Vol. 11, No. 7, pp. 707-719.

Business process reengineering and the commodification of ...

Selling science has become a common practice in contemporary universities. This commodification of academia pervades many aspects of higher education, including research, teaching, and administration. As such, it raises significant philosophical, political, and moral challenges. This volume offers the first book-length analysis of this disturbing trend from a philosophical perspective and presents views by scholars of philosophy of science, social and political philosophy, and research ethics.
